

Castleford School District
Cleaning/Disinfecting/Positive Case Plan for Fall Re-entry
POC: Dena Allred, Superintendent/HS Principal
208-537-6511/208-749-0118
dallred@castlefordschools.org

Staff and students on campus should adhere to the following:

- Respect social distancing guidelines of six feet
- Respect physical contact (hugging, fist bumps, handshakes, etc.)
- Stay home if you have tested positive for or are showing signs of COVID-19
- Practice good hand hygiene
- Cover coughs and sneezes
- Wearing a face mask is recommended (parental discretion) but not required
- No double up with lockers
- Follow the district policy #3520 and #3540 found on our website www.castlefordschools.wordpress.com

Maintaining a Healthy Environment:

- Disinfect surfaces and objects regularly.
 - Playground equipment, door handles, sink handles, drinking fountains, PE equipment, art supplies, toys, games etc.
 - Transportation: drives should practice safety actions and protocols as indicated for other staff and clean/disinfect school buses after each transport trip; they will also create distance on the buses with strategically assigned seating charts (siblings sit together, skip a row, and fill the bus with the least amount of student to student contact as the route is ran according to the seating charts).
 - Cleaning products should not be used near children, maintain adequate ventilation and follow manufacture guidelines for use
 - Healthy habits signs posted
 - All drinking fountains will be not be used; non-contact water bottle filling fountains will be available
- Shared Objects
 - Avoid shared items as much as possible that are difficult to clean or disinfect
 - Keep students' belongings separate from each other

- Classrooms
 - Maintain small student and staff groupings
 - Maintain as much as possible space seating/desks for social distancing with desks facing forward; if using tables, have students only sit on one side of the table so they are not facing each other.

Positive Case Plan:

- If a positive confirmed (from a doctor) case should occur the district will collaborate with the South-Central Health District
- Decisions will be made with the health district on a case-by-case basis
- Self-quarantine/isolate until the staff/student can return safely
- Communication with staff, parents, and students
- Clean and disinfect thoroughly
- If a short-term dismissal is needed, use the strategies in place for continued education

Symptoms of COVID-19:

- Fever greater than 100.3
- Dry cough, not due to allergies, etc..
- Shortness of breath or difficulty breathing
- Chills
- Repeated shaking with chills
- Muscle pain
- New or persistent headache
- Sore throat
- New loss of taste or smell
- Fatigue
- Congestion or runny nose
- Nausea or vomiting
- Diarrhea
